Tiruchirappalli, Tamil Nadu, India

PROFESSIONAL SUMMARY

Passionate and results-driven MERN Stack Developer with 2 years of hands-on experience building scalable and responsive web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in developing RESTful APIs, implementing authentication, handling file uploads, and deploying full-stack applications. Strong problem-solving skills with a focus on clean code, performance, and user experience. Seeking opportunities to contribute to innovative projects and enhance technical expertise.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, Redux, Tailwind, Framer Motion, React Native
Backend: Node.js, Express.js
Databases: MongoDB, MySQL, Redis
Tools & Platforms: Git, GitHub, VPS Hosting, Postman, Netlify, Render
Concepts: REST APIs, JWT Authentication, MVC Architecture, Agile Methodology, Deployment

WORK EXPERIENCE

Full Stack Developer

ILIFE Technologies, Tiruchirappalli, Tamil Nadu (On-site) **Feb 2026 - Present**

- Developed ERP-based web applications using TypeScript, React.js, Node.js, Express.js, and MongoDB
- Built scalable modules, reusable UI components, and optimized backend APIs
- Worked on both frontend and backend development with focus on performance and maintainability
- Collaborated with team members on feature development, debugging, and deployment

Junior Full Stack Developer

Digiplus Agency, Tiruchirappalli, Tamil Nadu (On-site) **July 2024 - July 2025**

- Developed scalable web applications using the MERN stack with focus on responsiveness and performance.
- Built reusable React components and integrated RESTful APIs with Express.js and MongoDB.
- Worked on both client-side UI and server-side logic, emphasizing security and optimization.

Freelance Full Stack Developer

Remote **August 2024 - Present**

- Developed a footwear e-commerce platform using the MERN stack with cart management and WhatsApp enquiry integration
- Implemented product management features including categories, discounts, inventory, and file uploads
- Designed and developed a visa consultancy platform for a UAE-based client with blog and country management features
- Built responsive user interfaces using Tailwind CSS and deployed full-stack applications on cloud platforms

PROJECTS

ERP Management System – Next Wiring Harness Technologies

- Developed ERP modules for Sales Orders, MRIN, Inventory Control, Purchase Management, Invoicing, Income, and Expense tracking using TypeScript and the MERN stack
- Built reusable frontend components and optimized backend APIs for scalable business operations
- Implemented secure authentication, role-based access control, and responsive dashboards for different user roles
- Streamlined workflow automation and reporting processes to improve operational efficiency

Salon Billing Web Application

- Independently built a salon management system with customer records, appointment booking, employee management, and billing automation.
- Implemented GST-enabled invoices, service categorization, and real-time bill generation, reducing manual billing errors.
- Developed revenue dashboards (daily, weekly, monthly) to enable data-driven financial insights.

Job Portal / CRM – SMS Job Street

- Developed a cross-platform job portal and CRM using React, TypeScript, Node.js, Express.js, and MySQL, integrated with an existing WordPress database.
- Implemented Job Leads, Candidate, Employer, Job Posting, Job Matching, Follow-up, Staff, and User Management modules.
- Built secure authentication, role-based access control, staff-specific data access, and optimized REST APIs for seamless system integration.

Al-Halal Footwear E-Commerce Platform

- Developed a full-featured footwear e-commerce platform with product management, cart functionality, and WhatsApp enquiry integration
- Implemented inventory management, pricing, discounts, image uploads, and category-based filtering
- Integrated Redis caching to improve API performance and optimize product data retrieval
- Designed a responsive UI using Tailwind CSS and optimized backend APIs for scalability and performance

Aqua Supreme Water Purifier CRM

- Engineered a CRM for customer details, installations, service schedules (3, 6, 12 months), and complaint tracking.
- Automated service reminders and due-date calculations, ensuring timely follow-ups and improved customer satisfaction.
- Designed role-based access for admins, service engineers to streamline workflows.

Visa Consultancy Platform – Visa Scout LLC (UAE)

- Designed and developed a dynamic visa consultancy platform using the MERN stack.
- Built features including country exploration, blog management, and customer enquiry support.
- Developed responsive UI components and optimized website performance for better user experience.

EDUCATION

Master of Computer Applications (MCA) June 2022 - April 2024
Jamal Mohamed College, Tiruchirappalli
CGPA: **8.37**

Bachelor of Computer Applications (BCA) June 2019 - April 2022
Bishop Heber College, Tiruchirappalli
CGPA: **8.20**
